Usability Testing Script for Community Olympic Festivals Platform

👋 Greetings:

Hello, Thank you for participating in this usability test for our Community Olympic Festivals platform. Your feedback is invaluable as we aim to create a user-friendly experience for sports fans looking to organize local Olympic Games. During this session, we will ask you to complete a specific scenario using our wireframe prototype. Please feel free to express your thoughts 💭 and any difficulties you encounter. There are no right or wrong answers; we are here to learn from your experience.

📋 Scenario:

Imagine you are a sports fan who wants to organize a local Olympic festival in your community. Your task is to:

1. Log in to the platform.
2. Create a new festival event.
3. Add details about the event, including the name, date, location, and activities.
4. Manage previous festivals by looking into participants chat.
5. Delete chats
6. 📱 Fill feedback form of previous festivals.

As you go through these steps, please think aloud about what you like or dislike, and any suggestions you have for improvement.

🙏 Conclusion:

Thank you for your time and valuable feedback! Your insights will help us improve the Community Olympic Festivals platform. If you have any final thoughts or questions, please feel free to share them now. We appreciate your participation! 🌟Feel free to adjust any of the emojis or text as needed! This version adds a friendly and engaging tone to the usability test script while maintaining clarity.
